- ▣ “My opinion is and long has been that the mayor and aldermen of a city corporation, or the president and directors of a bank, or the president and directors of a railroad company and of other similar corporations, are the true parties that sue and are sued as trustees and representatives of the constantly changing stockholders.... A corporation, therefore, being not a natural person, but a mere creature of the mind, invisible and intangible, cannot be a citizen of a state, or of the United States, and cannot fall within the terms or the power of the above mentioned article, and can therefore neither plead nor be impleaded in the courts of the United States.” Rundle v Delaware & Raritan Canal Company 55 U.S. 80 (1852) [emphasis added]

- ▣ "We are grateful to the Washington Post, the New York Times, Time magazine and other great publications whose directors have attended our meetings and respected the promises of discretion for almost forty years. It would have been impossible for us to develop our plan for the world if we had been subject to the bright lights of publicity during those years. But, the world is now more sophisticated and prepared to march towards a world-government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national auto-determination practiced in past centuries"-- David Rockefeller in an address to a Trilateral Commission meeting in June of 1991

- ▣ “Capital must protect itself in every way, through combination and through legislation. Debts must be collected and loans and mortgages foreclosed as soon as possible. When through a process of law, the common people have lost their homes, they will be more tractable, and more easily governed by the strong arm of the law applied by the central power of wealth, under control of leading financiers. People without homes will not quarrel with their leaders. This is well known among our principle men now engaged in forming an IMPERIALISM of capital to govern the world. By dividing the people we can get them to expend their energies in fighting over questions of no importance to us except as teachers of the common herd. Thus by discrete action we can secure for ourselves what has been generally planned and successfully accomplished.” The Banker’s Manifesto of 1934 from New American, February, 1934
