## Postcards from Trump Supporters Pass it ON

Ask papers, TV and Radio to promote

---

Great idea (not mine, but I'm in!)....feel free to join in!!!!

Trump Supporters. Here is something to get on board with to make our voices heard.

.....

On March 15th, each of us will mail Donald Trump a postcard (34 cents) that publicly expresses our support to him. And we, in vast numbers, from all corners of the world, will overwhelm the man with our support and belief in him. We will show the media and the politicians we are standing with him.

And most importantly, we will bury the White House post office with complete support of our President, who we are honored that he was willing to take on this job.

Each one of us — every supporter, writes even a single postcard and we put them all in the mail on the same day, March 15th, well: you do the math.

Write one postcard. Write a dozen! Take a picture and post it on social media. On March 15th, mail your messages to:

.....

President Donald J. Trump  
The White House  
1600 Pennsylvania Avenue NW  
Washington, DC 20500

# Ex-Agent: CIA Seed Money Helped Launch Google

Steele goes further than before in detailing ties, names Google's CIA liaison

*Paul Joseph Watson*  
Prison Planet

Wednesday, December 6, 2006

An ex-CIA agent has gone further than ever before in detailing Google's relationship with the Central Intelligence Agency, claiming sources told him that CIA seed money helped get the company off the ground and naming for the first time Google's CIA point man.

Robert David Steele, a 20-year Marine Corps infantry and intelligence officer and a former clandestine services case officer with the Central Intelligence Agency, is the CEO of OSS.net.

Speaking to the Alex Jones Show, Steele elaborated on his previous revelations by making it known that the CIA helped bankroll Google at its very inception.

"I think Google took money from the CIA when it was poor and it was starting up and unfortunately our system right now floods money into spying and other illegal and largely unethical activities, and it doesn't fund what I call the open source world," said Steele, citing "trusted individuals" as his sources for the claim.

"They've been together for quite a while," added Steele.

Asked to impart to what level Google is "in bed" with the CIA, Steele described the bond as a "small but significant relationship,"

- ▣ "We are grateful to the Washington Post, the New York Times, Time magazine and other great publications whose directors have attended our meetings and respected the promises of discretion for almost forty years. It would have been impossible for us to develop our plan for the world if we had been subject to the bright lights of publicity during those years. But, the world is now more sophisticated and prepared to march towards a world-government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national auto-determination practiced in past centuries"-- David Rockefeller in an address to a Trilateral Commission meeting in June of 1991

- ▣ “Capital must protect itself in every way, through combination and through legislation. Debts must be collected and loans and mortgages foreclosed as soon as possible. When through a process of law, the common people have lost their homes, they will be more tractable, and more easily governed by the strong arm of the law applied by the central power of wealth, under control of leading financiers. People without homes will not quarrel with their leaders. This is well known among our principle men now engaged in forming an IMPERIALISM of capital to govern the world. By dividing the people we can get them to expend their energies in fighting over questions of no importance to us except as teachers of the common herd. Thus by discrete action we can secure for ourselves what has been generally planned and successfully accomplished.” The Banker’s Manifesto of 1934 from New American, February, 1934
